

Title: Priority-setting for building resilience and strengthening climate change adaptation in the Pacific

1. Description

Start date	End date	Management liaison	Mgmt. liaison contact
Jul 2014	Dec 2016	F1	Thornton, Philip <p.thornton@cgiar.org>

Funding source types	Status	Lead Organization	Project leader
W1/W2, Bilateral	Complete	WorldFish - WorldFish - Malaysia	Andrew, Neil <n.andrew@cgiar.org>

Project is working on

Flaship(s)
F1 (before F4 - Philip): Priorities and Policies for CSA

Region(s)
Global

Project summary

Background: Pacific island communities are particularly vulnerable to the impact of climate change. This project will work with stakeholders in the Pacific to find the best ways for CCAFS to strengthen the adaptive capacity and resilience of Pacific Island communities. Project Goal: • To complete a plan of action for CCAFS work among Pacific climate change partners and in direct engagements with Pacific Island communities between 2015 and 2016. Specific project objectives: • Identification of key research priorities for CCAFS in the Pacific. • Identification of the key strategic partners to achieve impacts. • Identification of the key research providers with whom CCAFS should partner. • Integration of food systems approaches to climate change policy and investments (incl infographics and 'Big Facts') on the Pacific • Production of food systems publication to integrate public health issues with climate adaptation in 2016

2. Partners

Partner #1 (Leader)

Institution: WorldFish - WorldFish

Contact(s):

Type	Contact	Responsibilities and contributions	Branch
Project Leader	Andrew, Neil <n.andrew@cgiar.org>	Activity 2014-110 *Leader*. Activity 2014-436 *Leader*.	HQ

Partner #2

Institution: CIP - Centro Internacional de la Papa

Contact(s):

Type	Contact	Responsibilities and contributions	Branch
Partner	Quiroz, Roberto <r.quiroz@cgiar.org>	Activity 2014-110 *Partner*.	HQ

Lessons regarding your partnerships and possible implications for the coming planning cycle:

Year	Lesson(s)
2016	The project finished at the end of 2016

Partnerships overall over the last reporting period:

Funds for this project were heavily cut in 2016, so work was severely curtailed - this was problematic for partnerships with SPC (and regional CTA too).

3. Locations

This project is global

4. Outcomes

4.1 Project Outcomes

Project Outcome statement:

One regional organisation and at least two national organisations using CCAFS research to feed into policy processes (details to be worked out in early 2015 after a workshop built around the December 2014 consultant's report).

Annual progress towards outcome (end of 2016*): Outcome achieved

Annual progress towards project outcome in the current reporting cycle (2016*): Little progress made towards the outcome because of budget cuts
--

How communication and engagement activities have contributed to achieving your Project outcomes:* Comms from the regional scenarios workshop continued in 2016 - but the danger is that this work will now lose momentum.
--

Evidence documents of progress towards outcomes:* <Not Defined>
--

Annual progress towards outcome (end of 2015): One major communications success that is directed towards the impact pathways for this project

Annual progress towards outcome (end of 2017): too soon

Annual progress towards outcome (end of 2018):

lessons regarding your Theory of Change and implications for the coming planning cycle; e.g. how have your assumptions changed, or do you have stronger evidence for them:* No lessons regarding the ToC, other than the obvious one that resources are needed to move forward.

4.2 CCAFS Outcomes

F1 (before F4 - Philip) Outcome 2019: National/sub-national jurisdictions enact equitable food system policies and increase institutional investment that take into consideration climate smart practices/strategies, better articulated among themselves and in collaboration with private sector, civil society and researchers informed by CCAFS decision support tools

Indicator #1: # of equitable national/subnational food system policies enacted that take into consideration climate smart practices and strategies

2019
<p>Target value: 1</p> <p>Cumulative target to date: 4</p> <p>Target narrative: Details to be entered in early 2015</p> <p>The expected annual gender and social inclusion contribution to this CCAFS outcome: <Not Defined></p>
2015
<p>Target value: 0</p> <p>Cumulative target to date: 0</p> <p>Target narrative: <Not Defined></p> <p>The expected annual gender and social inclusion contribution to this CCAFS outcome: <Not Defined></p>
2016
<p>Target value: 3</p> <p>Cumulative target to date: 3</p> <p>Target achieved: 0.0</p> <p>Target narrative: Seek to support policies in 2 national jurisdictions and in regional policy</p> <p>Narrative for your achieved targets, including evidence: Targets not achieved due to budget cuts</p> <p>Narrative for your achieved annual gender and social inclusion contribution to this CCAFS outcome: Contribution not made due to budget cuts</p> <p>The expected annual gender and social inclusion contribution to this CCAFS outcome: All contributions will be gendered and M&E designed to support that outcome</p>

2017

Target value: 0

Cumulative target to date: 3

Target narrative: <Not Defined>

The expected annual gender and social inclusion contribution to this CCAFS outcome: <Not Defined>

Major Output groups:

- F1 (before F4 - Philip): Improved national planning processes through policy analyses, (re)formulation and implementation; and stakeholder analyses and engagement through scenarios, learning alliances and science-policy dialogues

F1 (before F4 - Philip) Outcome 2019: Appropriately directed institutional investment of regional/global organisations and processes (e.g. IFAD, WB, FAO, UNFCCC) based on national/regional engagement to learn about local climate smart food system priorities

Indicator #1: # of regional/global organisations and processes that inform their equitable institutional investments in climate smart food systems using CCAFS outputs

2019

Target value: 1

Cumulative target to date: 4

Target narrative: To be completed in early 2015

The expected annual gender and social inclusion contribution to this CCAFS outcome: <Not Defined>

2015

Target value: 0

Cumulative target to date: 0

Target narrative: <Not Defined>

The expected annual gender and social inclusion contribution to this CCAFS outcome: <Not Defined>

2016

Target value: 3

Cumulative target to date: 3

Target achieved: 0.0

Target narrative: FAO, SPC, FFA

Narrative for your achieved targets, including evidence: Targets not achieved due to budget cuts

Narrative for your achieved annual gender and social inclusion contribution to this CCAFS outcome: Contribution not made due to budget cuts

The expected annual gender and social inclusion contribution to this CCAFS outcome: as above

2017

Target value: 0

Cumulative target to date: 3

Target narrative: <Not Defined>

The expected annual gender and social inclusion contribution to this CCAFS outcome: <Not Defined>

Major Output groups:

- F1 (before F4 - Philip): Effective supra-national governance systems and equitable engagement mechanisms between international and regional/national stakeholders to influence global policy and strengthened capacities to integrate local priorities into global fora
- F1 (before F4 - Philip): Improved regional/global investment choices through appropriately contextualised priority setting, drawing on global foresight and socio-economic regional scenarios

4.3 Other Contributions

Contribution to other CCAFS Impact Pathways:

<Not Defined>

Collaborating with other CRPs

<This project does not have a CRP selected yet.>

4.4 Case Studies

No case studies added

5. Project outputs

5.1 Overview by MOGs

Major Output groups - 2019

F1 (before F4 - Philip): Improved national planning processes through policy analyses, (re)formulation and implementation; and stakeholder analyses and engagement through scenarios, learning alliances and science-policy dialogues

Brief bullet points of your expected annual 2019 contribution towards the selected MOG: <Not Defined>

Brief 2019 plan of the gender and social inclusion dimension of the expected annual output: <Not Defined>

F1 (before F4 - Philip): Effective supra-national governance systems and equitable engagement mechanisms between international and regional/national stakeholders to influence global policy and strengthened capacities to integrate local priorities into global fora

Brief bullet points of your expected annual 2019 contribution towards the selected MOG: <Not Defined>

Brief 2019 plan of the gender and social inclusion dimension of the expected annual output: <Not Defined>

F1 (before F4 - Philip): Improved regional/global investment choices through appropriately contextualised priority setting, drawing on global foresight and socio-economic regional scenarios

Brief bullet points of your expected annual 2019 contribution towards the selected MOG: <Not Defined>

Brief 2019 plan of the gender and social inclusion dimension of the expected annual output: <Not Defined>

Major Output groups - 2016

F1 (before F4 - Philip): Improved national planning processes through policy analyses, (re)formulation and implementation; and stakeholder analyses and engagement through scenarios, learning alliances and science-policy dialogues

Brief bullet points of your expected annual 2016 contribution towards the selected MOG: - completion of stakeholder scenario workshops - completion of technical research outputs and policy advice stemming from them - contribution to national planning in Solomon Islands, Vanuatu and regional processes

Brief summary of your actual 2016 contribution towards the selected MOG: Contributions to the MOG severely curtailed because of budget cuts. The scenarios workshop outputs are complete, although the technical and policy outputs from the process are not.

Brief 2016 plan of the gender and social inclusion dimension of the expected annual output: We will use the AAS gender approaches to guide our engagement with women and youth in the primary field work and in policy advice

Summary of the gender and social inclusion dimension of the 2016 outputs: None directly - this would be for a later stage in the project, if it were to continue

F1 (before F4 - Philip): Effective supra-national governance systems and equitable engagement mechanisms between international and regional/national stakeholders to influence global policy and strengthened capacities to integrate local priorities into global fora

Brief bullet points of your expected annual 2016 contribution towards the selected MOG: - support to SPC in developing evidence base for cc adaptation in the region

Brief summary of your actual 2016 contribution towards the selected MOG: Some support to SPC has been given, but the contribution was not fully realised due to budget cuts

Brief 2016 plan of the gender and social inclusion dimension of the expected annual output: as above

Summary of the gender and social inclusion dimension of the 2016 outputs: Gender issues are being included in the as yet uncompleted deliverable describing the challenges and opportunities in the Pacific region food system

F1 (before F4 - Philip): Improved regional/global investment choices through appropriately contextualised priority setting, drawing on global foresight and socio-economic regional scenarios

Brief bullet points of your expected annual 2016 contribution towards the selected MOG: - contribution to regional scenario development and evidence underpinning it

Brief summary of your actual 2016 contribution towards the selected MOG: Limited contribution to the MOG because of budget constraints, although a synthesis is being undertaken of the challenges and opportunities in the Pacific region food system

Brief 2016 plan of the gender and social inclusion dimension of the expected annual output: as above

Summary of the gender and social inclusion dimension of the 2016 outputs: None directly - this would be for a later stage in the project, if it were to continue

Major Output groups - 2015

F1 (before F4 - Philip): Improved national planning processes through policy analyses, (re)formulation and implementation; and stakeholder analyses and engagement through scenarios, learning alliances and science-policy dialogues

Brief bullet points of your expected annual 2015 contribution towards the selected MOG: <Not Defined>

Brief summary of your actual 2015 contribution towards the selected MOG: Scenarios developed, networks established, reports completed (noting the last one is still in production)

Brief 2015 plan of the gender and social inclusion dimension of the expected annual output: <Not Defined>

Summary of the gender and social inclusion dimension of the 2015 outputs: Gendered dimensions were included explicitly in scenario development

F1 (before F4 - Philip): Effective supra-national governance systems and equitable engagement mechanisms between international and regional/national stakeholders to influence global policy and strengthened capacities to integrate local priorities into global fora

Brief bullet points of your expected annual 2015 contribution towards the selected MOG: <Not Defined>

Brief summary of your actual 2015 contribution towards the selected MOG: Scenario outputs were made available to regional organizations and political leaders

Brief 2015 plan of the gender and social inclusion dimension of the expected annual output: <Not Defined>

Summary of the gender and social inclusion dimension of the 2015 outputs: As above

F1 (before F4 - Philip): Improved regional/global investment choices through appropriately contextualised priority setting, drawing on global foresight and socio-economic regional scenarios

Brief bullet points of your expected annual 2015 contribution towards the selected MOG: <Not Defined>

Brief summary of your actual 2015 contribution towards the selected MOG: funding for 2016 has been cut so we will not be able to bring our work in 2015 to a satisfactory conclusion in 2016+

Brief 2015 plan of the gender and social inclusion dimension of the expected annual output: <Not Defined>

Summary of the gender and social inclusion dimension of the 2015 outputs: as above

Major Output groups - 2014

F1 (before F4 - Philip): Improved national planning processes through policy analyses, (re)formulation and implementation; and stakeholder analyses and engagement through scenarios, learning alliances and science-policy dialogues

Brief bullet points of your expected annual 2014 contribution towards the selected MOG: <Not Defined>

Brief summary of your actual 2014 contribution towards the selected MOG: <Not Defined>

Brief 2014 plan of the gender and social inclusion dimension of the expected annual output: <Not Defined>

Summary of the gender and social inclusion dimension of the 2014 outputs: <Not Defined>

F1 (before F4 - Philip): Effective supra-national governance systems and equitable engagement mechanisms between international and regional/national stakeholders to influence global policy and strengthened capacities to integrate local priorities into global fora

Brief bullet points of your expected annual 2014 contribution towards the selected MOG: <Not Defined>

Brief summary of your actual 2014 contribution towards the selected MOG: <Not Defined>

Brief 2014 plan of the gender and social inclusion dimension of the expected annual output: <Not Defined>

Summary of the gender and social inclusion dimension of the 2014 outputs: <Not Defined>

F1 (before F4 - Philip): Improved regional/global investment choices through appropriately contextualised priority setting, drawing on global foresight and socio-economic regional scenarios

Brief bullet points of your expected annual 2014 contribution towards the selected MOG: <Not Defined>

Brief summary of your actual 2014 contribution towards the selected MOG: <Not Defined>

Brief 2014 plan of the gender and social inclusion dimension of the expected annual output: <Not Defined>

Summary of the gender and social inclusion dimension of the 2014 outputs: <Not Defined>

5.2 Deliverables

D1293 - Pacific consultants report and journal article

Main Information

Type: Reports and other publications **Subtype:** Conference paper / Seminar paper
Status: Cancelled **Year of expected completion:** 2016
Justification of new expected date of completion: Budget cuts

Cross-cutting dimension:
 <Not Defined>

Deliverable dissemination

Is this deliverable already disseminated: No
Open access: No
Open access restriction: <Not Defined>
License adopted: No

Deliverable Metadata

Open access: Yes

License adopted: No

Deliverable Metadata

Disseminated title: Climate change and Pacific Island food systems

Description / Abstract: Climate change in Pacific Island countries and territories (PICTs) is projected to have significant impacts, including rising sea-levels, more violent tropical cyclones and droughts. Fish stocks in the tropical regions of the Pacific are expected to be directly affected by any changes that may occur in the ocean's ecosystem. The four alternative scenarios of the future of the Pacific food systems that are reported in this booklet provide important insights into the different dimensions of the food system, including fisheries and forests, trade, affordability and consumption, and public health. The scenarios offer essential information for policy-makers, in order for them to be able to test and take steps toward developing policies that enhance resilience and strengthen adaptation to climate change among fishers and farmers in the Pacific region.

5.3 Project Highlights

No project highlights added

6. Activities

A436 - Stakeholder engagement and delivery of first key output

Description: Scenarios planning and prioritisation workshop to be conducted; on the basis the major impact pathway will be selected and detailed. The first key product to be delivered will be identified and produced, with a communications event towards the end of 2015.

Start date: Dec 2014

End date: Dec 2016

Activity leader: WorldFish - WorldFish Andrew, Neil <n.andrew@cgiar.org>

Status: Complete

Overall activity or progress made during this cycle: Completed activity and project ended

Deliverables in this activity:

- D239: Climate change and Pacific Island food systems
