The App

Learning IBLI is an interactive multilingual (currently supporting Afan Orommo and Swahili) android application that provides assessment and video tutorial on Index Based Livestock Insurance. It contains Pre, Post and Post-Post assessment on IBLI. Between Pre and Post assessment, there is a video tutorial module containing 7 courses, with in-video multiple choice continuous assessment quizzes.

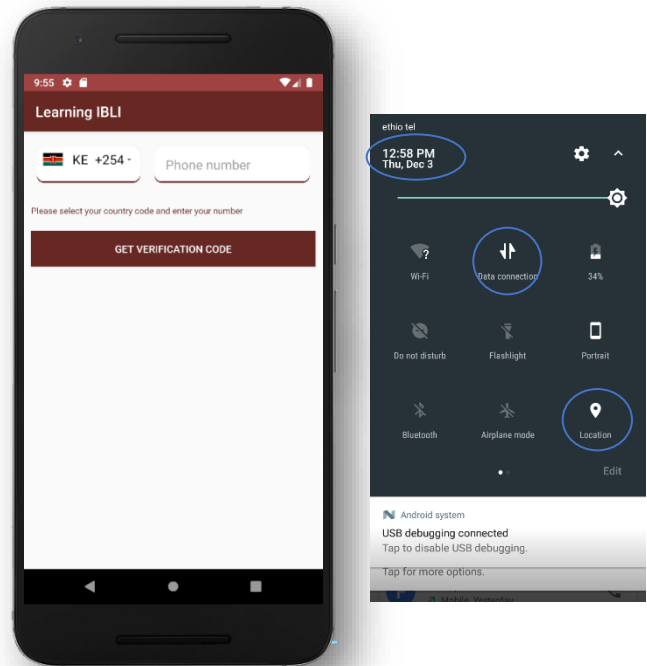

Platform

The app is native android application and can be installed on 90% of android phones. Minimum platform level to install is android 5.5 (Lollipop). Since the app communicates with a remote server at the beginning of installation for phone number verification and data syncing, it requires an **active sim card**, an **Internet connection**. **It is important that the Location feature on the phone should be enabled.**

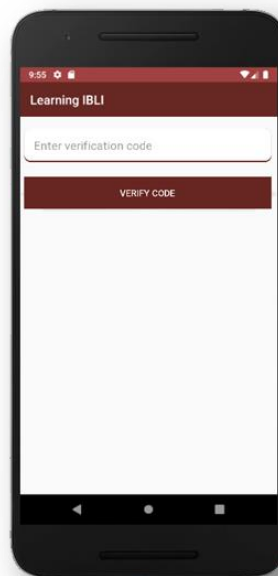

The location feature can be found over here on the phone *(the screen shot can come here with an arrow mark pointing towards it)*

First Time Install

1. Download the app from here <http://ibliapp.ilri.org/assets/apk/learningIBLI.apk>
2. From the location where you downloaded the app, initiate the installation, and follow the instruction
3. Select your country phone code
4. Enter your phone number.
Remove any preceding 0 on the phone number if any e.g. the number you type in will be +254 700740688
 - a. If you are from Kenya, choose the option for Kenya, if you are from Ethiopia, choose the option for Ethiopia
5. Press “Get Verification code” and wait for verification code to arrive via SMS
6. In most cases, once the SMS verification code arrives, the app will automatically read the code from the SMS and continue to the next step. If not, enter a 6 digit number you received via SMS titled “phone code”

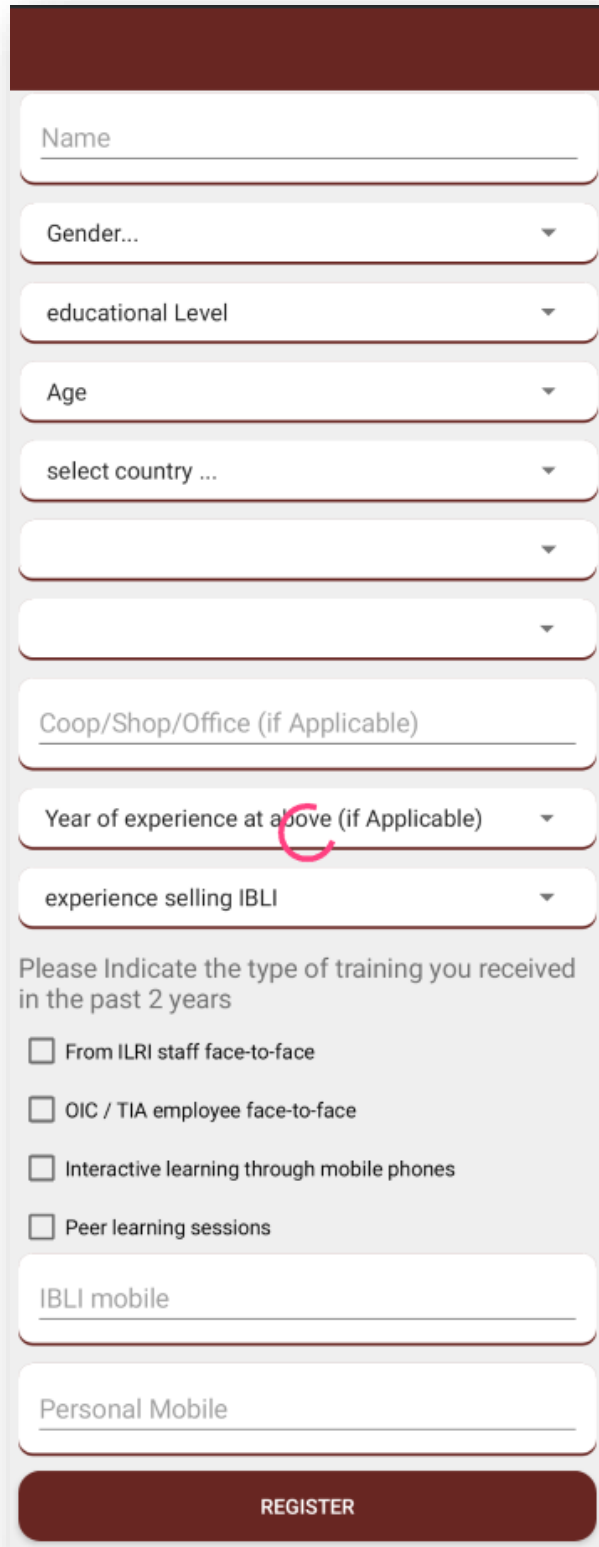

Before you start installing, make sure you are connected to the internet, set your phone's date correctly and have an active Sim card installed.

NOTE: At the beginning of this form a dialogue box asking for permission to use your location will appear. Select Allow for the app to get your location at the time of registration only.

8. This is the registration interface where we capture Agent information. Provide your details as per requested and do not leave any part of the form blank.

9. Select your desired language.
Mostly your language should correspond with the country you live in.
10. At this stage, the app will download necessary data from remote server. During this operation, it is recommended that you do not disconnect your phone from Internet and avoid exiting the app.

11. This is the main interface of the app. The previous installation process is a one-time process and this screen will be the main interface you will see whenever you launch your app after this.
12. The first row (presented in Swahili at this picture), is the “pre training quiz”. This assessment should be taken before proceeding to the video training modules. This quiz is locked once completed.
13. The second row contains the video module trainings. Its available once pre training quiz is completed. These modules are available for re-watching once completed.
14. The third row contains post training quizzes. To access this, all video modules should be completed.
15. The fourth row (“Tips”) is a refresher (Introduction) video on IBLI and a graphical depiction explaining AFRISCOUT.
16. The fifth row contains Post-Post training quizzes. It will be unlocked 14 days after completing the post training quizzes.
17. Use this icon to sync your performance to the server. Make sure you sync occasionally so that we can capture your progress.

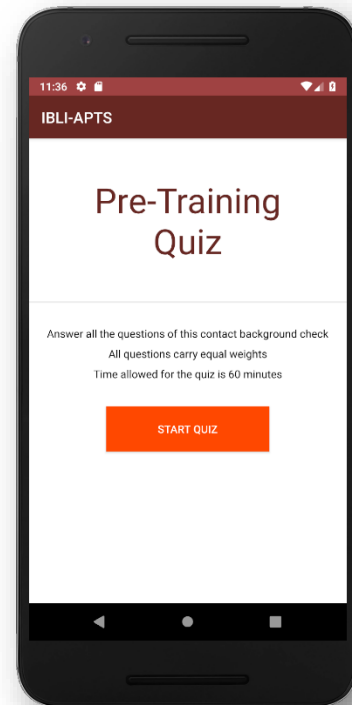

Main Interface

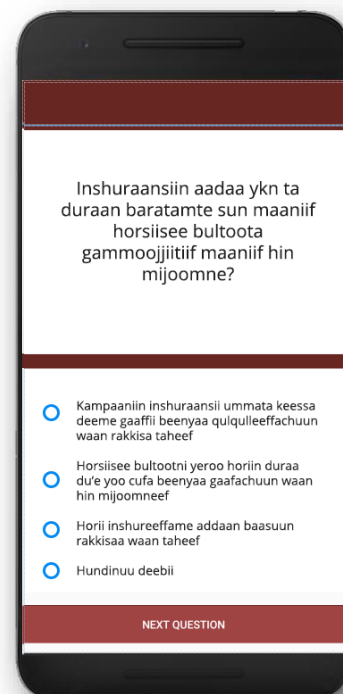

Sync

Pre training Quiz

16. On this interface, you will get instructions on how to complete the pre training quiz. This will be similar for Post and Post-Post training quizzes.
17. Press “start quiz” button to continue

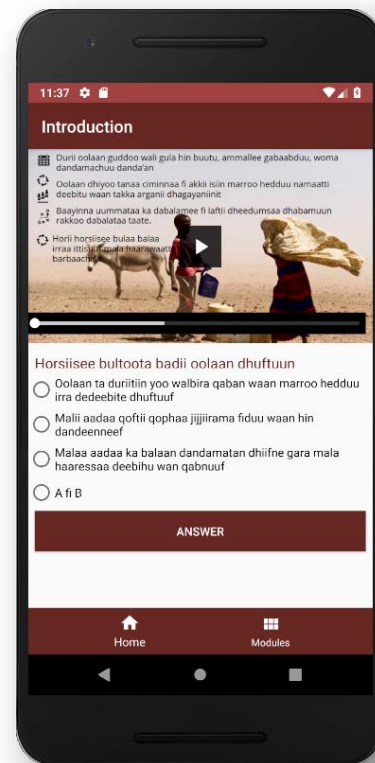

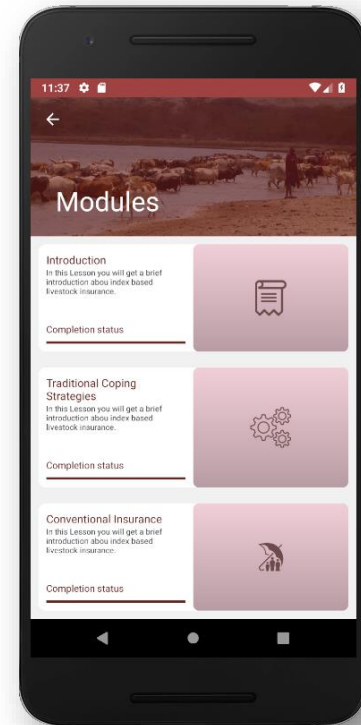

18. Here you will be presented with a series of questions to assess your knowledge on Index Based Livestock Insurance.
19. Select your answer
20. Press “Next question” to go to the next one
21. When you reach the end, the app will automatically take you back to the main interface. The pre training quizzes can only be taken once. If you exit the app or press the back button to go back before completing the app, all progress will be lost, and the entire quiz have to be taken again.

Video Training

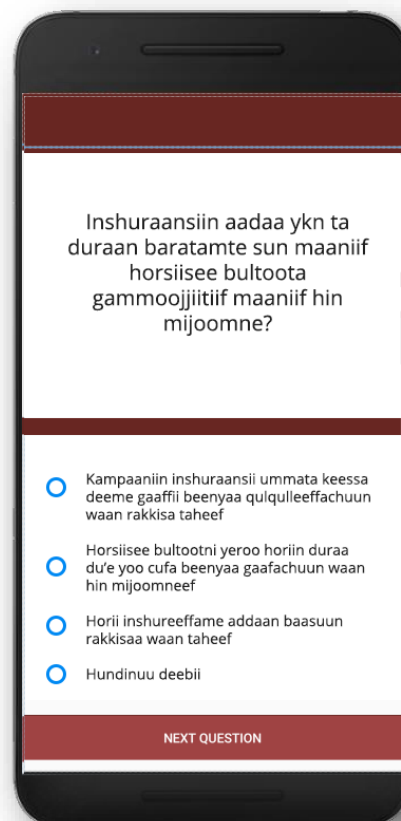

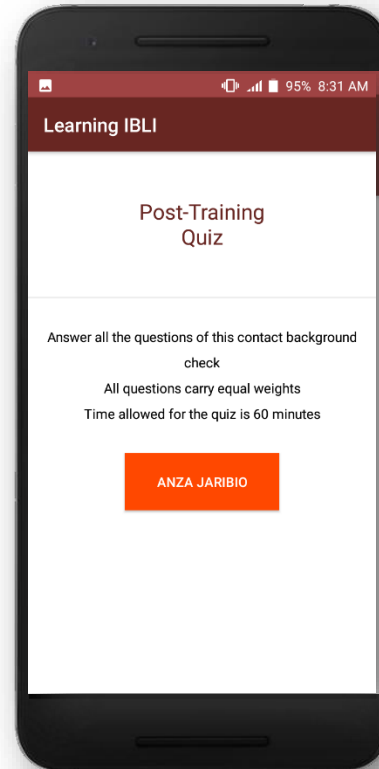

22. When you press “video training” on the main interface, you will get this list of modules. Each module has its own set of continuous assessment questions. You can only go the next module after completing the current one.

23. The second picture is the interface you will get when pressing one of the modules. It contains video player and quiz area. Quizzes will appear at certain stage of the video. You should answer the question before continuing to watch the video.
24. Video training are available for re-watch after completion. In-video assessment quizzes appear only once, and user doesn't have to go through them again once completed.
25. When a quiz appears, select your choice of answer
26. Press “ANSWER” button. This will resume the video.
27. When a module is completed, the app will take you back to the modules interface.
28. Use the “Home” button to go to the main interface
29. Use the “modules” button to go to the list of video modules

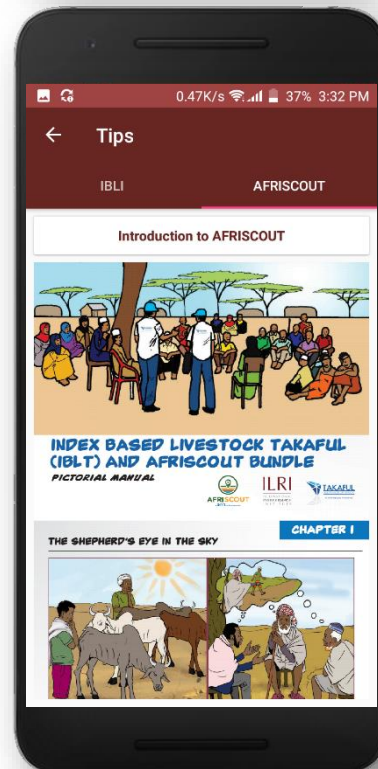

Post Training Quiz

30. After pressing the “start quiz” on the instruction interface similar to the pre-training quizzes, you will be presented with a series of post training questions.
31. Here you will be presented with a series of questions to assess your knowledge after taking the video training on Index Based Livestock Insurance.
32. Select your answer
33. Press “Next question” to go to the next one
34. When you reach the end, the app will automatically take you back to the main interface. The post training quizzes can only be taken once. If you exit the app or press the back button to go back before completing the app, all progress will be lost, and the entire quiz must be taken again.

Tips

35. When you press the fourth row (“Tips”) on the main interface, you will be presented with two tabs.
36. The first tab (“IBLI”) contains an introductory video on Index Based Livestock Insurance.
37. The second tab (“AFRISCOUT”) contains an introductory graphics on Index based Livestock Takaful and AFRISCOUT bundle.
38. You can press the back button to go back to the main screen.

Post-post training quiz

39. The fifth row in the main interface is the gateway to post-post training quizzes. But you must wait **14 days** to unlock this part. The date, as seen on the right, will count down to 0 and displays ready.
40. When you select it, you will be presented with an instruction interface just like pre and post quizzes. Once you start the quiz, you will find a series of post-post quizzes.
41. Select your answer and press “Next question” to go to the next quiz.
42. Once you complete the set of quizzes you will be taken back to the main interface.
