

Objective and purpose

The overall objective of the Implementing Nationally Determined Contribution Commitments in Agriculture (NDC4Ag) training is to build the capacity of technical staff from African ministries of agriculture, environment, finance and planning for successful planning and implementation of the agricultural components of NDCs. The purpose is to create a broader understanding of NDCs to enable participants to better understand: (a) what needs to be done; (b) how this can be done; (c) where they can find additional support; and (d) the existing tools which can be used for this purpose.

With support from

These training materials were funded by Gesellschaft für Internationale Zusammenarbeit (GIZ) as part of the CAADP support programme with the African Union Development Agency (AUDA-NEPAD) and carried out in partnership with the CGIAR Research Program on Climate Change, Agriculture and Food Security (CCAFS) and the Africa Group of Negotiators Expert Support (AGNES).

IMPLEMENTING NATIONALLY DETERMINED CONTRIBUTION COMMITMENTS IN AGRICULTURE (NDC4AG)

*Training package
overview*

Training package materials

The NDC4Ag training materials were developed for use with technical staff from ministries of agriculture, environment, finance and planning in African countries. There are six modules and seven group activities designed to be delivered over three and a half days. Each module allows participants from different countries to share experiences. Group activity exercises encourage participants to dive more deeply into the practical aspects of the topic and further share learning and experiences.

Content

Module 1: UNFCCC initiatives on agriculture and the Nationally Determined Contributions (NDCs)

Module 2: Climate actions in agriculture and priority setting for investments

Module 3: Climate finance for agriculture

Module 4: Private sector engagement for NDC implementation

Module 5: Consideration of social aspects for inclusive development

Module 6: Measurement, reporting and verification (MRV) and adaptation M&E
