

Women's Land Rights Conceptual Framework

Project Title: P663 - 5.1.1 Enhancing Tenure Security

Description of the innovation: The conceptual framework is used to analyze and understand the factors that influence women's land tenure security. It is designed to be relevant to both researchers and practitioners.

New Innovation: No

Stage of innovation: Stage 3: available/ ready for uptake (AV)

Innovation type: Social Science

Geographic Scope: Global

Number of individual improved lines/varieties: <Not Applicable>

Description of Stage reached: The framework was used by the Women's Land Rights Research Consortium to shape two rounds of grant-funded research papers. The first three studies, on Ethiopia, Uganda, and a comparative study of Indonesia, Peru, and Uganda have been completed.

Name of lead organization/entity to take innovation to this stage: <Not Defined>

Names of top five contributing organizations/entities to this stage:

- Resource Equity
- IFPRI - International Food Policy Research Institute
- University of Oxford - University of Oxford

Milestones:

- In collaboration with policy makers, innovative tenure security-enhancing innovations are tested across relevant contexts in 5 countries (cumulative total)
- Staff from research, civil society and development organization staff are trained in Flagship 5 methods

Sub-IDOs:

- 36 - Gender-equitable control of productive assets and resources

Contributing Centers/PPA partners:

- IFPRI - International Food Policy Research Institute
- University of Oxford - University of Oxford
