

Updated social accounting matrices for Malawi and Rwanda

Project Title: P668 - 2.1.5 Capacity Building and Economywide Data and Tools

Description of the innovation: A social accounting matrix (SAM) is a database that represents the flows of all economic transactions that take place within an economy. SAMs are used to undertake computable general equilibrium modeling, which has informed the development of the National Agricultural Investment Plans of Malawi and Rwanda.

New Innovation: No

Stage of innovation: Stage 4: uptake by next user (USE)

Innovation type: Social Science

Geographic Scope: Multi-national

Number of individual improved lines/varieties: <Not Applicable>

Country(ies):

- Rwanda
- Malawi

Outcome Impact Case Report: <Not Defined>

Description of Stage reached: The SAM for Malawi was used in the Malawi National Investment Plan 2017/18-2022/23. The SAM for Rwanda was used in Rwanda's Strategic Plan for Agriculture Transformation 2018-24.

Name of lead organization/entity to take innovation to this stage: <Not Defined>

Names of top five contributing organizations/entities to this stage:

- Government of Rwanda
- IFPRI - International Food Policy Research Institute
- Government of Malawi

Milestones: No milestones associated

Sub-IDs:

Contributing Centers/PPA partners:
