

## Margherita

**Project Title:** P2061 - ICARDA Flagship 3

**Description of the innovation:** it was one of the top yielder varieties in some of the most stressed locations in Iraq . It was officially released in Lebanon in October 2020. The variety showed a high resistance to PM and LR. It is resistant to both YR and SR pathotypes aggressive on durum.

**New Innovation:** No

**Stage of innovation:** Stage 4: uptake by next user (USE)

**Innovation type:** Genetic (varieties and breeds)

**Geographic Scope:** Regional

**Number of individual improved lines/varieties:** <Not Defined>

**Region:**

- Western Asia

**Outcome Impact Case Report:** <Not Defined>

**Description of Stage reached:** >100 ha

**Name of lead organization/entity to take innovation to this stage:** <Not Defined>

**Names of top five contributing organizations/entities to this stage:**

- ICARDA - International Center for Agricultural Research in the Dry Areas
- LARI - Lebanese Agricultural Research Institute

**Milestones:** No milestones associated

**Sub-IDs:**

- 2 - Reduced smallholders production risk
- 5 - Diversified enterprise opportunities
- 7 - Increased value capture by producers

**Contributing Centers/PPA partners:**

- ICARDA - International Center for Agricultural Research in the Dry Areas

**Evidence link:**

**Deliverables associated:** <Not Defined>

**Contributing CRPs/Platforms:**

- Wheat - Wheat
