

Landscape specific fertilizer management decision making targeting extension agents and experts

Project Title: P477 - Integrated Watershed Management for enhanced productivity with sustained environmental services

Description of the innovation: <Not Defined>

New Innovation: Yes

Stage of innovation: Stage 1: discovery/proof of concept (PC - end of research phase)

Innovation type: Production systems and Management practices

Geographic Scope: National

Number of individual improved lines/varieties: <Not Applicable>

Country(ies):

- Ethiopia

Description of Stage reached: The innovation is being tested and piloted for wider scaling

Name of lead organization/entity to take innovation to this stage: ICRISAT - International Crops Research Institute for the Semi-Arid Tropics

Names of top five contributing organizations/entities to this stage:

- GIZ - Deutsche Gesellschaft für Internationale Zusammenarbeit / German Society for International Cooperation
- MoANR - Ministry of Agriculture and Natural Resources (Ethiopia)

Milestones:

- Sustainable and inclusive agriculture, land and water management (ALWM) solutions for landscape/watershed management are scaled via investments made by national governments and donors in 2 countries

Sub-IDs:

- 8 - More efficient use of inputs

Contributing Centers/PPA partners:

- ICRISAT - International Crops Research Institute for the Semi-Arid Tropics

Evidence link:
