

## Using metal cans instead of traditional containers to transport milk in pastoral areas

**Project Title:** P339 - Better evidence on foodborne disease in target regions

**Description of the innovation:** <Not Defined>

**New Innovation:** No

**Stage of innovation:** Stage 1: discovery/proof of concept (PC - end of research phase)

**Innovation type:** Production systems and Management practices

**Geographic Scope:** Regional

**Number of individual improved lines/varieties:** <Not Applicable>

**Region:**

- Sub-Saharan Africa

**Description of Stage reached:** Tested Borana. Appears to be insufficient incentives for uptake. REMOVE. Upon more consideration, we elect not to count this as an innovation.

**Name of lead organization/entity to take innovation to this stage:** ILRI - International Livestock Research Institute

**Names of top five contributing organizations/entities to this stage:**

- AAU - Addis Ababa University

**Milestones:** No milestones associated

**Sub-IDs:**

**Contributing Centers/PPA partners:**

**Evidence link:**

**Deliverables associated:** <Not Defined>

**Contributing CRPs/Platforms:**

- A4NH - Agriculture for Nutrition and Health
