

Automated report generator tool of Peskas summary analytics from Timor-Leste

Project Title: P1862 - Inspire Winner Scale Up Runner Up 2019: An integrated data pipeline for small-scale fisheries

Description of the innovation: A code that builds a pdf report file of summary analytics from the latest data in the system.

New Innovation: Yes

Stage of innovation: Stage 1: discovery/proof of concept (PC - end of research phase)

Innovation type: Research and Communication Methodologies and Tools

Geographic Scope: National

Number of individual improved lines/varieties: <Not Applicable>

Country(ies):

- Timor-Leste

Description of Stage reached: The code for the tool has been written and the first version is live on the portal and being tested by end users.

Name of lead organization/entity to take innovation to this stage: WorldFish - WorldFish

Names of top five contributing organizations/entities to this stage: <Not Defined>

Milestones:

- 3.1.11: 2021: Implement up to eight start up projects (awarded in 2020) and up to four scale up projects awarded in 2019.

Sub-IDs:

- 23 - Enhanced conservation of habitats and resources

Contributing Centers/PPA partners:

- WorldFish - WorldFish
