

Framework for unfolding government expenditure for scaling up climate smart agriculture

Project Title: P786 - Developing and Evaluating Alternative Policy and Institutional Models for Scaling-up Climate Smart Food System in South Asia

Description of the innovation: 1. Map various components of different government programs and policies with the component of climate smart agriculture. 2. Map government budget allocation for various programs as well as on the climate smart component of the program. 3. Review impact case studies of climate smart components to quantify their implications on adaptation to climate change and mitigation of GHG emission from agriculture sector. 4. Estimate government budget allocation on adaptation and mitigation

New Innovation: No

Stage of innovation: Stage 3: available/ ready for uptake (AV)

Innovation type: Social Science

Geographic Scope: Regional

Number of individual improved lines/varieties: <Not Applicable>

Region:

- Southern Asia

Description of Stage reached: We have adopted that framework to review existing policies of government of India and published one journal article on this. This framework has been adopted by the government of Bhutan to prepare their agricultural strategies.

Name of lead organization/entity to take innovation to this stage: IFPRI - International Food Policy Research Institute

Names of top five contributing organizations/entities to this stage:

- BISA - Borlaug Institute for South Asia
- ACIAR - Australian Center for International Agricultural Research
- ICAR - Indian Council of Agricultural Research
- IFAD - International Fund for Agricultural Development
- USAID - U.S. Agency for International Development

Milestones:

- National/state level decision-makers are being supported in developing CSA investment portfolios for international climate finance providers that meet funding requirements and are informed by CCAFS science; decision-makers being made aware of 'good enough' enabling policy elements required and barriers to be reduced to support CSA at scale (linked to CoA 1.3 activities)
- National/state institutions continue enacting food/nutrition-related policies that plan for climate change and consider local priorities. CCAFS analyses inform selection criteria for eligibility of climate financing through global processes where USD 150 million new investments are allocated on that basis

Sub-IDs:

- 41 - Conducive agricultural policy environment

Contributing Centers/PPA partners:

- IFPRI - International Food Policy Research Institute
