

"How are we doing?", a tool for participatory monitoring and adaptive learning in multi-stakeholder fora

Project Title: P803 - 9. Landscape Governance

Description of the innovation: This tool is designed to be used by multistakeholder fora participants to foster better communication, mutual understanding and adaptive learning towards truly inclusive processes.

New Innovation: No

Stage of innovation: Stage 4: uptake by next user (USE)

Innovation type: Social Science

Geographic Scope: National

Number of individual improved lines/varieties: <Not Applicable>

Country(ies):

- Peru

Outcome Impact Case Report: <Not Defined>

Description of Stage reached: The tool's generic version was tested in two management committees of protected areas in Peru, leading to a second version customized for these management committees and published by Peru's Service for Natural Protected Areas as an official government document to be implemented in 76 management committees (15% of Peru's territory).

Name of lead organization/entity to take innovation to this stage: CIFOR - Center for International Forestry Research

Names of top five contributing organizations/entities to this stage:

- FCDO - Foreign, Commonwealth & Development Office (formerly DFID)(United Kingdom)
- NORAD - Norwegian Agency for Development Cooperation
- Ministerio del Ambiente / Ministry of Environment (Peru)

Milestones: No milestones associated

Sub-IDs:

- 25 - More productive and equitable management of natural resources
- 36 - Gender-equitable control of productive assets and resources
- 38 - Improved capacity of women and young people to participate in decision-making

Contributing Centers/PPA partners:

- CIFOR - Center for International Forestry Research
