

A methodology on stocktaking of gender-responsive policies and measures during COVID-19 in Ethiopia, Senegal and Zambia

Project Title: P2238 - Evidence WP3: Generate and Fill Gaps

Description of the innovation: <Not Defined>

New Innovation: Yes

Stage of innovation: Stage 2: successful piloting (PIL - end of piloting phase)

Innovation type: Social Science

Geographic Scope: Multi-national

Number of individual improved lines/varieties: <Not Applicable>

Country(ies):

- Zambia
- Ethiopia
- Senegal

Description of Stage reached: The methodology was used in a qualitative study on stocktaking of gender-responsiveness measures by governments and development agencies in Ethiopia, Senegal and Zambia. Its findings informed discussions during a policy dialogue on 16 November 2021, development of 3 country reports, 3 policy briefs, a video and an overview report.

Name of lead organization/entity to take innovation to this stage: CGIAR Gender Platform

Names of top five contributing organizations/entities to this stage:

- IAPRI - Indaba Agricultural Policy Research Institute
- AfricaRice - Africa Rice Center

Milestones: No milestones associated

Sub-IDs:

- 37 - Technologies that reduce women's labor and energy expenditure adopted
- 36 - Gender-equitable control of productive assets and resources

Contributing Centers/PPA partners:

- ILRI - International Livestock Research Institute
