

New Urochloa interspecific hybrids

Project Title: P647 - Activity 3.2.2 Breeding programs

Description of the innovation: Formation and testing of new Urochloa interspecific hybrids, better in at least one marked desired trait than current commercial hybrids benchmarks.

New Innovation: No

Stage of innovation: Stage 1: discovery/proof of concept (PC - end of research phase)

Innovation type: Genetic (varieties and breeds)

Geographic Scope: Global

Number of individual improved lines/varieties: 1

Description of Stage reached: Hybrids with improved performance (>5%) in two key marked desirable traits (seed production – biotic resistance) defined.

Name of lead organization/entity to take innovation to this stage: CIAT (Alliance) - Alliance of Bioversity and CIAT - Regional Hub (Centro Internacional de Agricultura Tropical)

Names of top five contributing organizations/entities to this stage:

- Papalotla - Semillas Papalotla SA de CV

Milestones: No milestones associated

Sub-IDs:

Contributing Centers/PPA partners:
