

Market assessment approaches for adoption of porcine cysticercosis vaccine in Uganda

Project Title: P616 - Activity 2.4.1: Animal Health Service provision

Description of the innovation: Several linked studies to understand the demand for cysticercosis vaccine in Uganda.

New Innovation: No

Stage of innovation: Stage 3: available/ ready for uptake (AV)

Innovation type: Social Science

Geographic Scope: National

Number of individual improved lines/varieties: <Not Applicable>

Country(ies):

- Uganda

Description of Stage reached: GALVmed - Public Private Partnership is promoting a combined cysticercosis vaccine and treatment. The flagship research found that a purely market-based approach was unlikely to succeed and recommended other strategies.

Name of lead organization/entity to take innovation to this stage: GALVmed - Global Alliance for Livestock Veterinary Medicines

Names of top five contributing organizations/entities to this stage:

- ILRI - International Livestock Research Institute

Milestones: No milestones associated

Sub-IDs:

Contributing Centers/PPA partners:
