

Identification of targets of *Mycoplasma mycoides* subspecies *mycoides*

Project Title: P612 - Activity 2.3.3: Development of improved vaccines against CBPP

Description of the innovation: Identification of targets of *Mycoplasma mycoides* subspecies *mycoides* towards which antibodies inhibit adhesion and growth.

New Innovation: No

Stage of innovation: Stage 2: successful piloting (PIL - end of piloting phase)

Innovation type: Biophysical Research

Geographic Scope: Global

Number of individual improved lines/varieties: <Not Applicable>

Description of Stage reached: Discovered candidates can be tested in animals.

Name of lead organization/entity to take innovation to this stage: ILRI - International Livestock Research Institute

Names of top five contributing organizations/entities to this stage:

- University of Bern
- University of Bonn

Milestones: No milestones associated

Sub-IDs:

Contributing Centers/PPA partners:

Evidence link:
