

Evidences

Study #3783

Contributing Projects:

- P798 - 6. Bioenergy an essential part of low-emissions development strategies and policies

Part I: Public communications

Type: Other MELIA activity

Status: On-going

Year: 2021

Title: Story of Change evidencing outcome level results of a Bioenergy project in Indonesia

Commissioning Study: CIFOR

Part II: CGIAR system level reporting**Links to the Strategic Results Framework:**

Sub-IDOs:

- Enhanced capacity to deal with climatic risks and extremes (Mitigation and adaptation achieved)
- Enhanced adaptive capacity to climate risks (More sustainably managed agro-ecosystems)

Is this OICR linked to some SRF 2022/2030 target?: Yes

SRF 2022/2030 targets:

- Reduce agriculturally related greenhouse gas emissions compared to business-as-usual scenario 2022

Description of activity / study: Story of Change evidencing outcome level results of a Bioenergy project in Indonesia

Geographic scope:

- National

Country(ies):

- Indonesia
