Contributing Projects:

- P1651 - Product Line 5.4.2: Menu of organizational and business models for improved livestock value chain performance

Part I: Public communications

Type: Qualitative Outcome Study: (mainly to substantiate contribution to policy or similar)

Status: Cancelled

Year: 2021

Title: Study of utilization by partners of the Producers Organization Sustainability Assessment (POSA) tool

Commissioning Study: ILRI

Part II: CGIAR system level reporting
Links to the Strategic Results Framework:

Sub-IDOs:

- Reduced market barriers

Is this OICR linked to some SRF 2022/2030 target?: No

Description of activity / study: The tool has been developed and used by ILRI in dairy business hubs in East Africa from 2013. This study aimed at documenting its use by partners and while the tool has been used by the non-governmental organizations RTI International and Heifer, we were unable to document the evidence.

Geographic scope:

- National

Country(ies):

- Kenya

Comments: <Not Defined>
