

Participatory rangeland management (PRM) is an innovation developed by ILRI and partners. In 2018 the European Union invested Euro 1.5 million in piloting PRM in Kenya and Tanzania.

Project Title: P573 - Activity 4.3.1: Land and resource tenure arrangements and institutional models.

Description: <Not Defined>

Is new?: No

Stage of Maturity of the Process: Stage 2

Policy/Investment Type: Budget or Investment

Amount: USD \$1,500,000.00

Geographic Scope: Multi-national

Country(ies):

- Tanzania, United Republic
- Ethiopia
- Kenya

Outcome Impact Case Report:

- 3115 - Participatory rangeland management (PRM) being piloted in Kenya and Tanzania covering 246,773 ha of pastoralists' communal grazing lands, and upscaled in Ethiopia (Updated 2020) (<https://tinyurl.com/y9o8y5hu>)

Innovations:

- I1143 - Participatory Rangeland Management (PRM) in Tanzania and Kenya (<https://tinyurl.com/2fh6vej8>)

Narrative of Evidence: <Not Applicable>

Milestones:

- Dissemination of manuals/ tools for rangeland and land use planning processes in Tunisia, Kenya and Tanzania to community leaders, local government officials and national line ministry staff by the end of 2018.
- 4.5.2 National government agencies in three priority countries use flagship outputs to improve land governance arrangements, thereby helping to reduce land degradation.

Sub-IDs:

- 25 - More productive and equitable management of natural resources
- 13 - Increased access to productive assets, including natural resources
- 29 - Enhanced adaptive capacity to climate risks (More sustainably managed agro-ecosystems)

Contributing Centers/PPA partners:

- ILRI - International Livestock Research Institute

Contributing CRPs/PTF:

- PIM - Policies, Institutions, and Markets
- Livestock - Livestock
