

Post-2020 Global Biodiversity Strategy

Project Title: P1589 - Policy Support for Climate Resilient, Biodiversity-rich Seed Systems

Description: CCAFS' contributions to the negotiation of the 'Post-2020 Global Biodiversity Strategy' being developed for adoption by the Conference of the Parties to the Convention on Biological Diversity

Is new?: No

Stage of Maturity of the Process: Stage 1

Policy/Investment Type: Policy or Strategy

Amount: <Not Applicable>

Geographic Scope: Global

Outcome Impact Case Report:

- 3107 - Influencing the Post 2020 Global Biodiversity Framework (an interim, evolving outcome) (<https://tinyurl.com/y37dhgbr>)
- 3833 - Influencing the Post 2020 Global Biodiversity Framework (still interim due to COVID 19 pandemic) (<https://tinyurl.com/yxrhfvqk>)
- 3125 - Supportive policy environment on informal seed system led to increased utilization of local climate-resilient varieties in East Africa (<https://tinyurl.com/y56zsqqh>)

Innovations:

- I1070 - Resilient seed systems approach and methodology (<https://tinyurl.com/2l6unmdr>)
- I1072 - Holistic and dynamic approach and methodology to establish and support multifunctional community seedbanks (<https://tinyurl.com/2eozyneq>)

Narrative of Evidence: <Not Provided>

Milestones:

- New priority setting framework being used to target more transformational food system interventions in selected countries

Sub-IDOs:

- 12 - Increased conservation and use of genetic resources
- 41 - Conducive agricultural policy environment

Contributing Centers/PPA partners:

- Bioversity (Alliance) - Alliance of Bioversity and CIAT - Headquarter (Bioversity International)

Contributing CRPs/PTF:

- Genebank - Genebank Platform
- CCAFS - Climate Change, Agriculture and Food Security
