

## Two community biocultural protocols aimed at promoting farmers as managers, providers and recipients of genetic materials and developing expertise for climate change adaptation approved by municipal governments in Benin

**Project Title:** P66 - Global policy support for biologically diverse, climate resilient agriculture

**Description:** <Not Defined>

**Is new?:** No

**Stage of Maturity of the Process:** Stage 2

**Policy/Investment Type:** Policy or Strategy

**Amount:** <Not Applicable>

**Geographic Scope:** Sub-national

**Country(ies):**

- Benin

### Outcome Impact Case Report:

- 2574 - Model community biocultural protocols developed to promote farmers' as managers, providers and recipients of genetic materials and expertise for climate change adaptation' (<https://tinyurl.com/2ykap8jb>)

### Innovations:

- I63 - Demonstrating utility of global system for sharing genetic resources to national policy makers system through local climate change vulnerability analysis (<https://tinyurl.com/2e595lae>)
- I272 - Decision-making tool for national implementation of the Plant Treaty's multilateral system of access and benefit-sharing (<https://tinyurl.com/2myuhu37>)
- I273 - Evaluating Multilateral System (MLS) (gene bank) material for climate change adaptation using participatory methods with farmers and breeders (<https://tinyurl.com/2gljcwph>)

**Narrative of Evidence:** <Not Applicable>

**Milestones:** <Not Provided>

### Sub-IDs:

- 12 - Increased conservation and use of genetic resources

**Contributing Centers/PPA partners:** <Not Provided>

### Contributing CRPs/PTF:

- CCAFS - Climate Change, Agriculture and Food Security
