Subject: Letter of support

This letter of support is written to express the collaboration between *The Alliance of Bioversity International and CIAT, The International Livestock Research Institute (ILRI)* and ACATECH TECHNOLOGY PLC to facilitate partnership between the three institutes within the framework of the Accelerating Impacts of CGIAR Climate Research for Africa (AICCRA) Project (2021-2023) and the Supporting Soil Health Initiatives (SHH) projects and the CGIAR Excellence in Agronomy (EiA) Initiative.

This is to confirm that the institutions have been working together to develop an integrated national ag. data hub at the MoA and min-hubs in other institutions such as EIAR in Ethiopia. The partnership also includes developing analytical and decision support tools that can enable data-driven and knowledge-based decisions.

With regards

Melkamu Beyene
