The changing images of livestock in development

Jimmy W. Smith
Director General, International Livestock Research Institute, Kenya

‘The role of livestock in smallholder livelihoods’
All-Party Parliamentary Group on Agriculture and Food for Development
London, UK, 29 June 2016
15 CGIAR centres working in an integrated portfolio of CGIAR research programs

- Reduced poverty
- Improved food and nutrition security for health
- Improved natural resource systems and ecosystem services
Gains in meat consumption in developing countries are outpacing those of developed countries.
The changing images of livestock
Meeting livestock demand by importing, industrializing or transforming
Transforming *fragile* livestock growth
Transforming *rapid* livestock growth
Transforming *high* livestock growth
Cross-cutting livestock issues
Thank you!

UK provides ILRI with
