The project: This publication is part of a series developed to support decision-making for the prevention and control of highly pathogenic avian influenza through the use of risk mapping, and is an output of the Early Detection Response and Surveillance of Avian Influenza in Africa (EDRS-AIA) project, implemented by the International Livestock Research Institute (ILRI) in collaboration with African Union Interafrican Bureau for Animal Resources (AU/IBAR).

Researchers and writers: A joint research team from the Royal Veterinary College (RVC) in London and ILRI prepared this publication series under the guidance of Professor Dirk Pfeiffer. Team members included Solenne Costard, Kim Stevens, Raphaelle Metras, Wachira Theuri, Russ Kruska, Tom Randolph, Delia Grace, and Saskia Hendrickx.

Editor: Carole Douglis

Graphic Design: Lilian Ohayo, Eric Ouma

Photographer: Stevie Mann/ILRI

Acknowledgments: We thank the following for comments and suggestions: Gary Smith, staff of the United States Agency for International Development (USAID), and members of the ILRI-AU/IBAR Early Detection Response and Surveillance project.

Support: This series of bird flu risk-mapping publications is made possible by the generous support of the American people through USAID. The contents are the responsibility of ILRI and/or AU-IBAR and do not necessarily reflect the views of USAID or the United States Government.
