Healthy Diets from Sustainable Food Systems:

*Integrated Indicators, Global Food Database and EAT Report*

Frank Rijsberman, CEO CGIAR Consortium
Sustainable Development Goals

• 17 Goals, 169 Targets, 62 Targets linked to Food System
• Interconnected Health, Food & Sustainability Challenges
• Require *Integrated Indicators* to monitor progress
We propose 11 integrated indicators and 3 priority indicators:

1. Animal Protein Consumption
2. Climate Smart Agriculture
3. Food Waste
We propose a **Global Food Database** and **EAT Report** on the state of the food system.
