Iddo Dror
Program Leader, Impact at Scale, ILRI

LIVEMAP Validation Workshop
11 December 2020
Background – from an Annex to a Website

Comment from TWG reviewers stressed the importance of an annex of solutions

Thinking about users, their needs, and how we can curate and keep updated a dedicated database of livestock solutions, frameworks and tools.

Decided to curate online by creating a new website: [https://livestockinvestmentmasterplan.info](https://livestockinvestmentmasterplan.info)
Key functionality

- Simple to navigate and find solutions
- Directory listing with advanced search capabilities
- Short summaries of solutions, with links back to home institute
Work in progress

This is a ‘demo’ version.

We look forward to your feedback - including in some of today’s breakout groups,

We have a backlog of enhancement requests that we will be looking into – this work will continue in 2021.
Demo – live walk through of the website
Quick feedback

Thanks in advance for your feedback via chat
The International Livestock Research Institute (ILRI) is a non-profit institution helping people in low- and middle-income countries to improve their lives, livelihoods and lands through the animals that remain the backbone of small-scale agriculture and enterprise across the developing world. ILRI belongs to CGIAR, a global research-for-development partnership working for a food-secure future. ILRI’s funders, through the CGIAR Trust Fund, and its many partners make ILRI’s work possible and its mission a reality. Australian animal scientist and Nobel Laureate Peter Doherty serves as ILRI’s patron. You are free to use and share this material under the Creative Commons Attribution 4.0 International Licence ©©.
