Livestock stakeholder meeting

East Africa Dairy Development Project

Roland Mugumya, Immaculate Omondi, Susan Atyang, Jane Kugonza and Silver Turyahikayo

Uganda Livestock Sector Consultative Meeting, Kampala, 14 March 2017

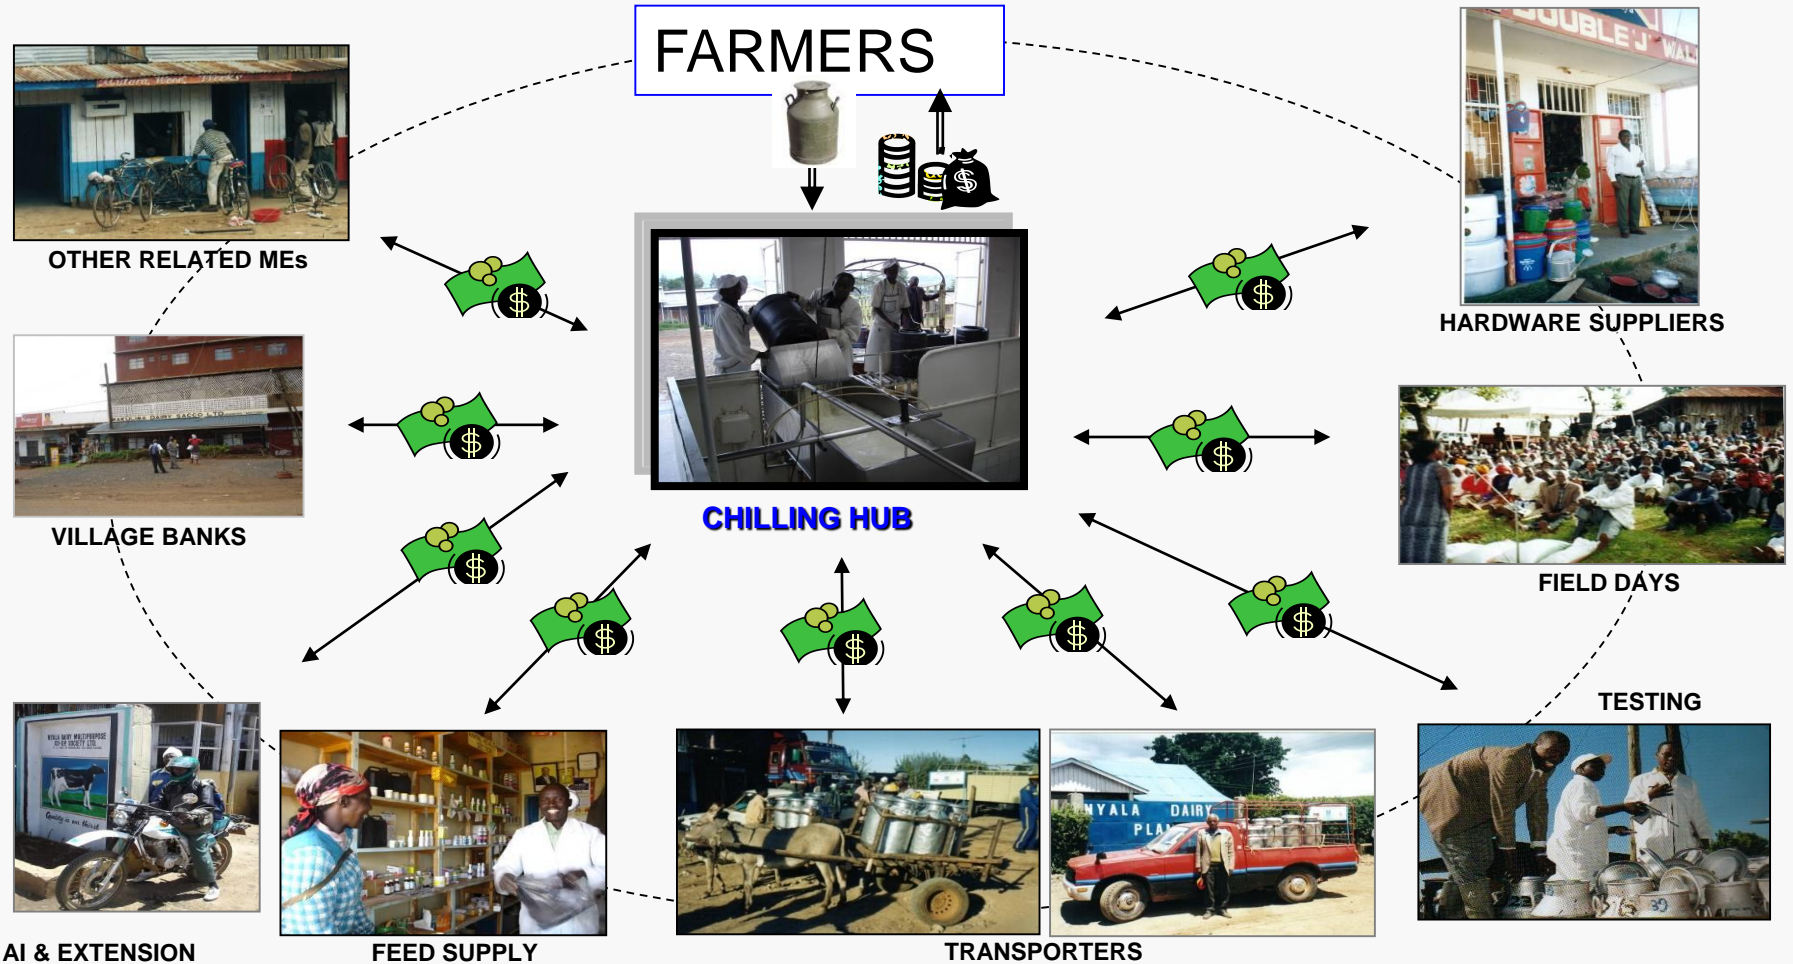

...Milk for Health and Wealth...

5 year program

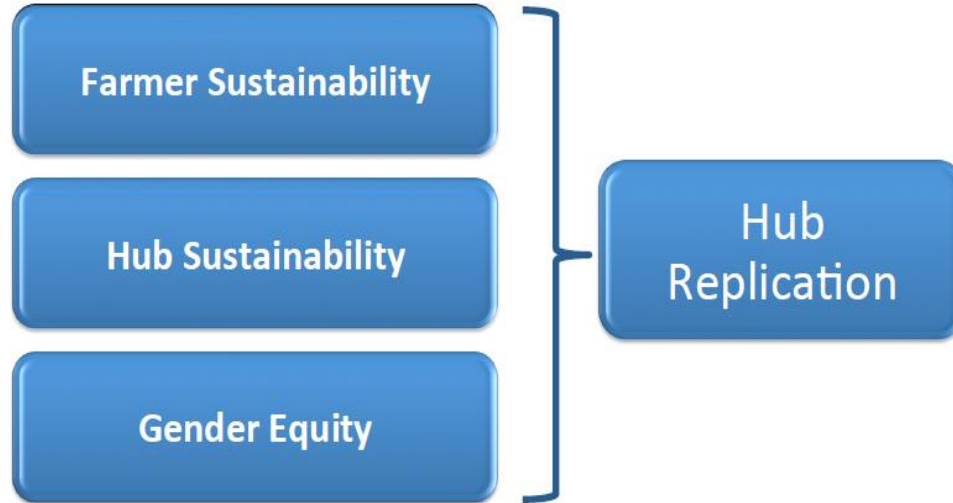

Designed to transform livelihoods of resource poor farming communities through a “competitive” and “inclusive dairy value chain

The Hub approach

Dairy Hub

Expected Outcomes

- **Farmer sustainability:** Increased milk production; increased yield per cow; decreased seasonality; increased farmer income and establish dairy as a profession of choice for youth.
- **Dairy Hub sustainability:** Increased value proposition to members and markets; proactive leadership & management and making hubs becoming independent and sustainable.
- **Gender equity:** Increased women active suppliers; and increased women decision making at households and hubs.
- **Hub model replication:** Hub approach adoption by other stakeholders through evidence based learning and industry sub-sector coordination.
