Introducing the CGIAR in Ethiopia

Siboniso Moyo, ILRI

Ethiopia - CGIAR Research Programs (CRPs) Country Collaboration and Site Integration Meeting, Addis Ababa, 11 December 2015
Reduced poverty

Improved food and nutrition security for health

Improved natural resource systems and ecosystem services

Ethiopia GTP 2
- Reducing poverty
- Achieving food security
- Contributing to economic growth
- Contributing to exports
- Contributing to climatic sustainability
Introducing the CGIAR in Ethiopia

Development Partners on Campus

Bioversity International
CIAT
CIFOR
CIMMYT
ICARDA
ICRISAT
ILRI
IFPRI
IWMI
World Agroforestry Centre

Close neighbours
EIAR, MoA, MoL&F, FAO

CGIAR is a global research partnership for a food secure future
Introducing the CGIAR Research Programs in Ethiopia

- Agriculture for Nutrition and Health
- Climate Change, Agriculture and Food Security
- Dryland Systems
- Forest Trees and Agroforest
- Genebanks
- Humidtropics
- Livestock and Fish
- Maize and wheat
- Policies, Institutions, and Markets

- Plant protection and health
- Crop and livestock genetics
- Livestock health and feeds
Some Thematic Areas we are working on

• Inputs & Farmers Services/Extension
• Post Harvest Handling
• Markets & Utilization
• Nutrition & Health

• Information Management & Exchange
• Data & Policy
• Gender
• Environment
Generating and sharing Knowledge

- CGIAR Centers publish in international and local channels.

- Publications are published open access to maximize uptake and impact.

- Results are also adapted and translated to enable use by local partners.

- With partners, our knowledge reaches farmers through knowledge centres, print, posters, extension, platforms, video, phones, radio, TV ...
THANK YOU

CGIAR is a global research partnership for a food secure future
