India

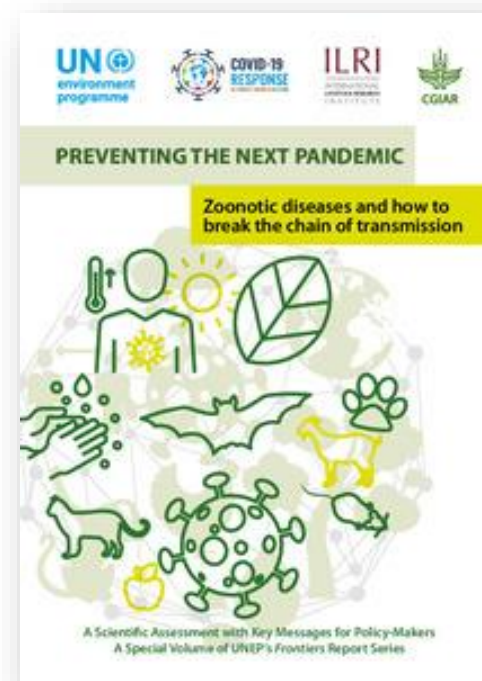

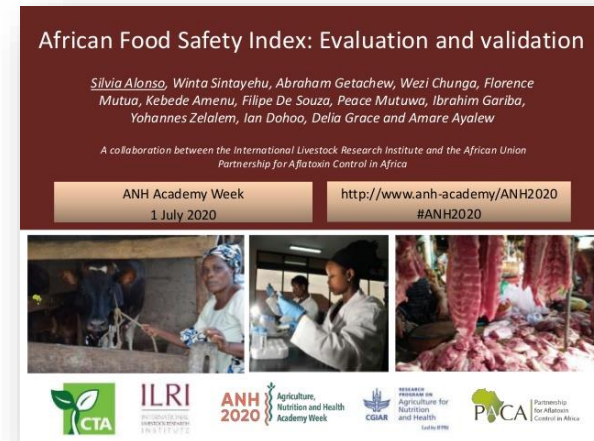

# Major achievements in 2020

## FP3 generated evidences helped change significantly:

- Donors landscape on food safety: BMGF, DFID, WB.
- Key actors of food safety changed their priority on of their programs: WHO, FAO, AU, GFSP...

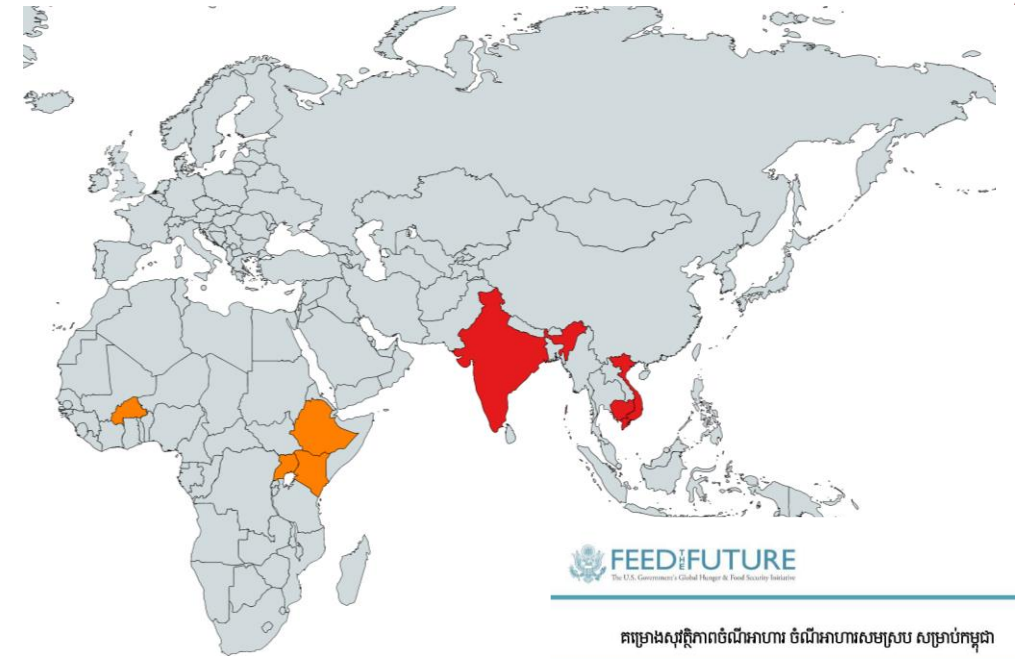

**Producing key reports for the African Union (AU), Alliance for a Green Revolution in Africa (AGRA), (UNEP), and other agencies in response to growing demand in food safety evidences**

# Major achievements in 2020

Testing and scaling food safety interventions in 6 countries, engaging stakeholders applying the 'three-legged stool'

- Training / technology
- Certification/enabling environment
- Marketing/incentive
- On the way to reaching millions of people
- Pork, chicken, dairy, and vegetable

# Opportunities

- Build on the success of food safety research, strong position in One CGIAR
- Wet markets, bush meat, Covid-19, One Health
- Continue the food safety assessment, but move more to interventions (plus private sectors)
